Board Effectiveness Review

As part of our ongoing process of self-reflection and drive for constant improvement, we invited an external consultant who is considered a national voice for good governance across the UK HE sector, to come and review our Trustee Board and examine our governance processes.

As a result, 78 recommendations were identified and actioned which we are confident has significantly improved our governance arrangements and the effectiveness of our Board.

You can read the report through the attached link: Anglia Ruskin SU Board Review Report Nov 23 v1.0.pdf
